

Sponsor a Specific Missionary Need

AIR FARE TO AFRICA

Description: They say, "Getting there is half the battle." In the case of ministry work in Africa, they should say, "Getting there is half the budget!" This is a major expense for ministry workers

Cost: Estimated at \$2,100 per round trip flight.

Additional Information: Your gift will be applied to the air fare for 2010 tickets when exact dates and costs are known.

In addition to ministry projects, there are numerous costs associated with the logistics of keeping folks on the field and the tools necessary to accomplish these projects. Your gifts to these specific needs will ensure God's Kingdom will continue to be built project by project, life by life and community by community until all the Unreached peoples of the world have been reached.

MEDICAL EVACUATION INSURANCE

Description: Accidents certainly do happen in Africa, and they are often more serious due to the lack of emergency response facilities and personnel. Consequently, WTM workers travel with medical evacuation insurance in the event of a life-threatening emergency.

Cost: Estimated at \$250 per month for a family.

Additional Information: Give for a month or the whole year. Your donation will be applied to the premium.

MISSIONARY HOME AND AFRICA HEADQUARTERS

Description: Work has already begun on a small home to house missionary family or worker teams in West Africa. The foundation is already laid and is waiting walls and a roof.

Cost: Remaining costs estimated at \$7,720

Additional Information: This cost does not include furnishings or any other amenities.

Partner with us today!

Here are some of the ways you can become a part of the WTM vision:

1. Visit our "Pick a Project" page on our web site (www.transformationalministries.com) to see the numerous opportunities to sponsor specific ministry projects, including hand dug and drilled wells, health clinics, gravity flow water systems, biosand filters, tree nurseries, resource centers, microfinancing projects and more!
2. Support our missionaries monthly or with one-time gifts by visiting our web site and making a secure PayPal donation. All your gifts are tax-deductible. Checks can also be sent to the address on the back of this brochure with "Missionary Support" in the subject line. Alternatively, you can choose to sponsor a specific missionary need, like air fare, medical evacuation insurance or housing. Contact us at info@transformationalministries.com for more information.
3. Join us in the field by sponsoring a ministry project and send a small team to implement and support the work. Opportunities vary by project and location, so please contact us directly for more information.
4. Spread the word about WTM. Our desire is develop a network of individuals and churches who share our passion for reaching the Unreached. We welcome opportunities to share that vision face-to-face.
5. Join our ministry and prayer team to receive prayer requests. E-mail info@transformationalministries.com and include "add me to the WTM prayer list" in the subject line.
6. WTM encourages you to also pursue the ministry God has placed in your own heart. Join the multitudes who are spread across the globe building God's Kingdom one act a time and one life at a time until the whole world has been impacted by God's people.

The projects below offer you the opportunity to direct each the Unreached by meeting specific needs that build bridges to sharing the Gospel among various people groups or assist other workers who are taking the Good News where it is unknown. Your donation will be applied specifically to the project you choose. Some projects describe a specific geographic location and the people group that will be impacted. Other projects allow you to choose an appropriate technology or project that will be applied where it is most needed.

HAND DUG WELL

Description: These small communities of unreached people lack both clean water and Living water in the least developed region in Cameroon.

Geographic location: Adamawa Province, Cameroon

Duration/Cost: 1 month/\$4,600

Additional Information: This area is home primarily to the Fulbe/Fulani people, a nomadic, cattle-herding Muslim people.

BUSH CLINIC MEDICAL KIT

Description: Diseases like malaria, typhoid, dysentery and more can be treated during village health clinics with these meds

Geographic location: Priority is given to refugee villages and rural locations

Duration/Cost: 1 clinic per kit/\$125

Additional Information: Malaria kills nearly 2,000 children per day in the world. This is one of many diseases that can be cured as a result of these life-saving health clinics as people are taught about the Great Physician.

Our mission is to provide for the spiritual, physical and social needs of those who need it most through sustainable, transformational development.

BIOSAND FILTERS

Description: These physical and biological filters are constructed from local materials and help prevent many water-borne diseases

Geographic location: Rural villages where no reliable source of drinking water exists

Duration/Cost: Filters will last as long as maintained/\$10 per filter

Additional Information: Filter construction could also serve as a micro-finance project. Ask about funding a small business for a family.

RESOURCE CENTER

Description: These centers combine the Gospel message with practical demonstrations and learning through hands-on displays of appropriate technology. Gospel materials are presented in the center through various media.

Geographic location: Adamawa Province, Cameroon and Gulu, Uganda (Village of Hope)

Duration/Cost: Indefinite/varies

Additional Information: Centers focus on water supply, health education, agroforestry, animal husbandry and appropriate technology

GRAVITY FLOW WATER SYSTEM

Description: Bible translators in a remote region of the Northwest Province lack a reliable, clean water source for both their family and the community with whom they are developing a written language so that the Gospel may be heard in their heart language.

Geographic location: Nwa, Cameroon

Duration/Cost: 1-2 months/estimated between \$6,000-\$8,000

Additional Information: A feasibility study is still required.

SMALL-SCALE COMMUNITY TREE NURSERY

Description: Trees provide food, fuel, shelter and more for rural communities. A community nursery is invaluable to a struggling village. Our focus is on edible trees such as papaya, banana, and Moringa (a.k.a. the Miracle Tree).

Geographic location: Rural communities and villages

Duration/Cost: Indefinite/\$350 per nursery

Additional Information: WTM partners with ECHO to provide the best possible seeds. Our focus is on promoting local varieties.

KENYA TOP BAR (KTB) BEE HIVE

Description: Honey is a valuable source of income for many poor farmers and communities. Unfortunately current beekeeping practices are often destructive and dangerous. Promotion of the KTB hive improves yield and supports families while building a bridge for the Gospel.

Geographic location: Throughout the Adamawa Province, Cameroon

Duration/Cost: Indefinite/\$20 per hive

Additional Information: Hives are built locally.

FUEL-EFFICIENT COOK STOVES

Description: These stoves help prevent deforestation through the use of alternative fuels, improve burning efficiency and are portable. This design uses sawdust, a locally available material and cheaper alternative to firewood.

Duration/Cost: Long-lasting construction. \$10 each w/bag of fuel

Geographic Location: Priority is placed on refugee village and rural communities

Additional Information: These stoves can be constructed by local tradesmen, which promotes the local economy and small business

SMALL-SCALE POULTRY FARM

Description: Although chickens are common throughout Africa, poultry production with fast-growing chickens offers small-scale farmers the opportunity to generate revenue, feed their family and focus on spiritual matters once their basic physical needs have been met.

Geographic location: Varies

Duration/Cost: 4+ months/\$300
